

Effectively Partnering with Culturally and Linguistically Diverse Families

This workshop is designed for professionals who serve and work directly with linguistically and culturally diverse families who have children with Autism and other developmental/intellectual disabilities.

In this interactive workshop, participants will learn about and engage in discussions on the following topics:

- ◇ Diverse cultural perspectives of disability
- ◇ Communication challenges: general and cross-cultural
- ◇ Verbal and nonverbal forms of communication
- ◇ Strategies for supporting and increasing partnerships between families and professionals
